1.0 USE CASE TESTING

1.1 Use Case 1 (SRD_REQ-01 → View eBooks Details)

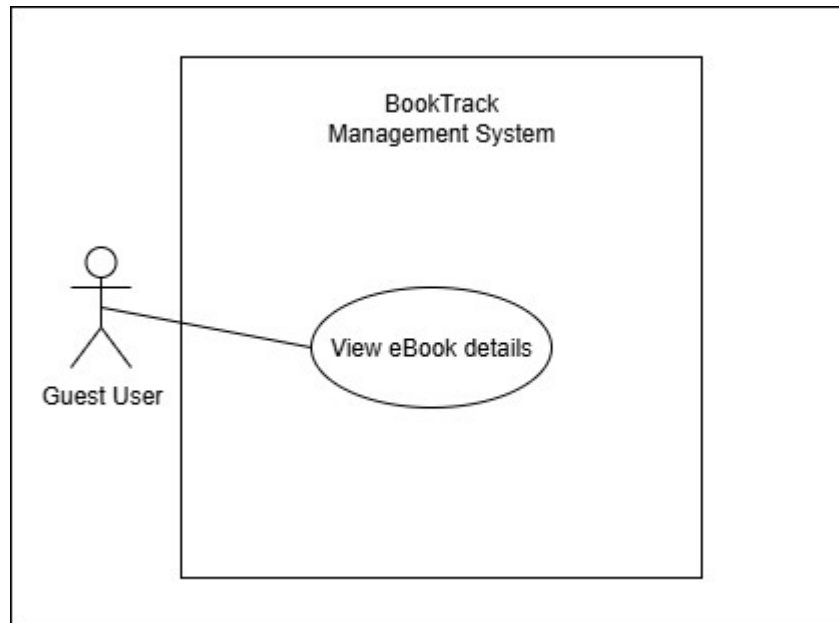

Figure 1 : Use Case 1

1.1.1 Use Case Name

View eBooks Details

1.1.2 Requirement Reference

Use Case: 1

Use Case Name: View eBooks Details

1.1.3 Use Case Description

Allows users to read comprehensive eBook information.

1.1.4.1 Test Case 1

Test Objective	To verify that guest users can view complete eBook details when selecting a valid book.
Potential Test Inputs (with example)	Book Selection: "The Midnight Library" by Matt Haig (Book ID: B001)
Expected Test Outputs (with example)	- Displays: Title, author, synopsis. - Registered users additionally see: Ratings and reviews.
Test Procedures	1. Search or browse to find a book. 2. Click on the book title/cover. 3. Verify displayed details match the database.
Actual Test Results	The result will be same as expected.
Remark	Compare UI output with database records for accuracy.

*Table 1 : Test Case 1 of View eBooks Details***1.1.4.2 Test Case 2**

Test Objective	To validate error handling when an eBook cannot be found (invalid/non-existent ID).
Potential Test Inputs (with example)	Book Selection: "InvalidBook123" (Non-existent ID)
Expected Test Outputs (with example)	Error message: "Content not found".
Test Procedures	1. Manually enter an invalid book URL or ID. 2. Attempt to load the page.
Actual Test Results	The result will be same as expected.
Remark	Check server logs for 404 errors if the message doesn't appear.

Table 2 : Test Case 2 of View eBooks Details

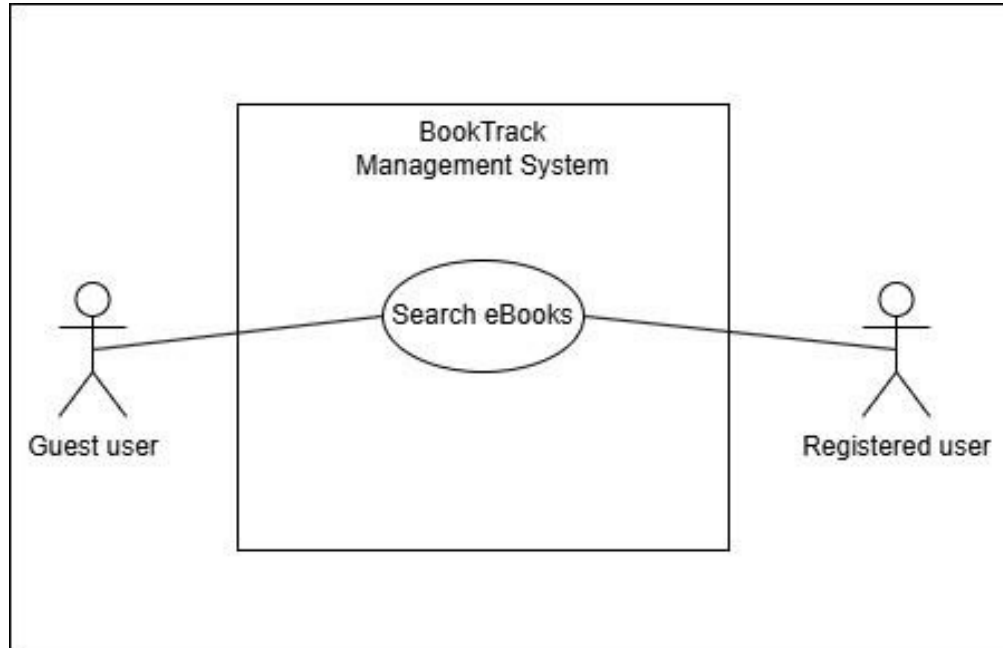

1.2 Use Case 2 (SRD_REQ-02 → Search eBooks)

Figure 2 : Use Case 2

1.2.1 Use Case Name

Search eBooks

1.2.2 Requirement Reference

Use Case: 2

Use Case Name: Search eBooks

1.2.3 Use Case Description

Allows guest and registered users to search for eBooks by filtering results based on genre.

1.2.4.1 Test Case 1

Test Objective	To verify that users can successfully search for eBooks by genre.
Potential Test Inputs (with example)	Genre Selection: "Romance" (from dropdown)
Expected Test Outputs (with example)	- Displays a filtered list of eBooks in the "Romance" genre (e.g., "It Ends with Us" by Colleen Hoover). - Shows metadata (title, author and synopsis).
Test Procedures	1. Navigate to the search page. 2. Select "Romance" from the genre dropdown. 3. Click "Search."
Actual Test Results	The result will be same as expected.
Remark	If no results appear, verify the database contains eBooks tagged as "Romance."

*Table 3 : Test Case 1 of Search eBooks***1.1.4.2 Test Case 2**

Test Objective	To validate error handling when no eBooks match the selected genre.
Potential Test Inputs (with example)	Genre Selection: "Science Fiction" (assumed empty in database).
Expected Test Outputs (with example)	Displays: "No eBooks found in this genre."
Test Procedures	1. Navigate to the search page. 2. Select "Science Fiction" from the genre dropdown. 3. Click "Search."
Actual Test Results	The result will be same as expected.
Remark	If eBooks appear, check genre tagging in the database.

Table 4 : Test Case 2 of Search eBooks

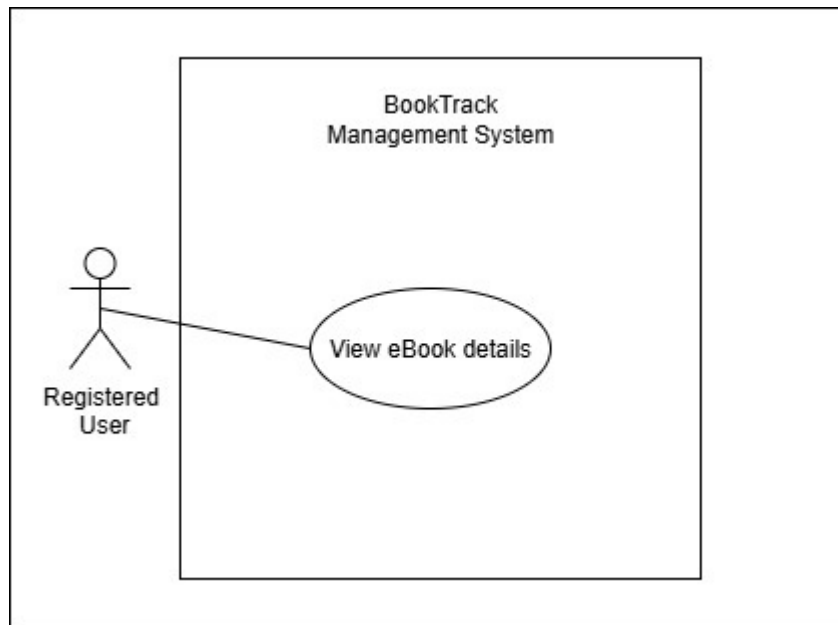

Figure 3 : Use Case 3

1.3.1 Use Case Name

View eBooks Details

1.3.2 Requirement Reference

Use Case: 3

Use Case Name: View eBooks Details

1.3.3 Use Case Description

Allows registered users to read comprehensive eBook information.

1.3.4.1 Test Case 1

Test Objective	To verify that registered users can view complete eBook details when selecting a valid book.
Potential Test Inputs (with example)	Book Selection: "The Midnight Library" by Matt Haig (Book ID: B001)
Expected Test Outputs (with example)	- Displays: Title, author, synopsis. - Registered users additionally see: Ratings and reviews.
Test Procedures	4. Search or browse to find a book. 5. Click on the book title/cover. 6. Verify displayed details match the database.
Actual Test Results	The result will be same as expected.
Remark	Compare UI output with database records for accuracy.

*Table 5 : Test Case 1 of View eBooks Details***1.3.4.2 Test Case 2**

Test Objective	To validate error handling when an eBook cannot be found (invalid/non-existent ID).
Potential Test Inputs (with example)	Book Selection: "InvalidBook123" (Non-existent ID)
Expected Test Outputs (with example)	Error message: "Content not found".
Test Procedures	3. Manually enter an invalid book URL or ID. 4. Attempt to load the page.
Actual Test Results	The result will be same as expected.
Remark	Check server logs for 404 errors if the message doesn't appear.

1.4 Use Case 4 (SRD_REQ 04 → Manage Profile)

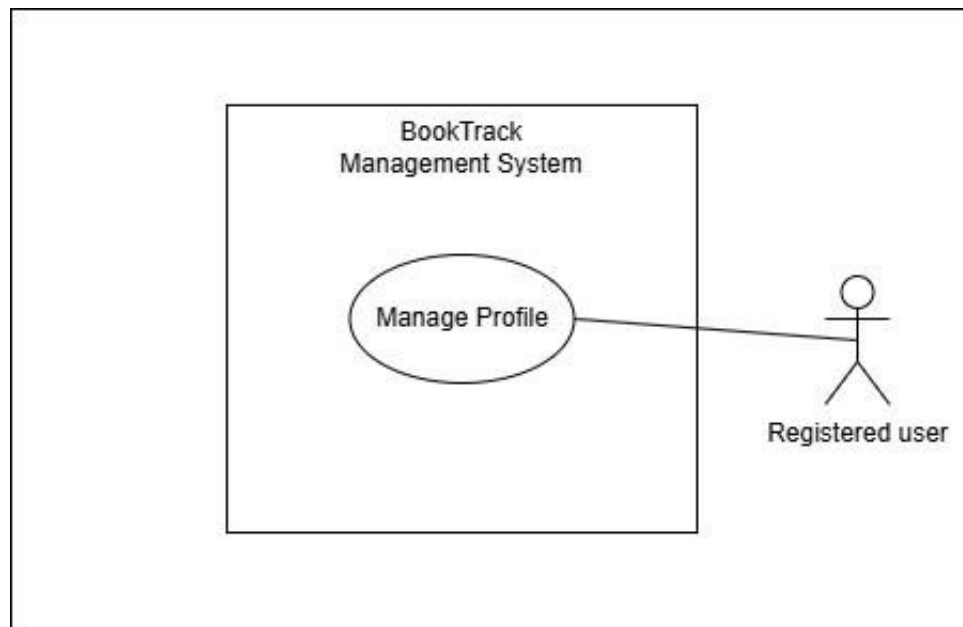

Figure 4 : Use Case 4

1.4.1 Use Case Name

Manage Profile

1.4.2 Requirement Reference

Use Case: 4

Use Case Name: Manage Profile

1.4.3 Use Case Description

Allows users to update personal information and preferences.

1.4.4.1 Test Case 1

Test Objective	To verify that a registered user can successfully update their profile information (name, email, password).
Potential Test Inputs (with example)	- Name: "Ali bin Ahmad" → "Ali bin Abdullah" - Email: "ali@gmail.com" → "ali.abdullah@gmail.com" - New Password: "SecurePass123!"
Expected Test Outputs (with example)	- Confirmation message: "Profile updated successfully." - Fields reflect changes immediately.
Test Procedures	1. Log in as a registered user. 2. Navigate to "Profile" > "Edit Profile." 3. Update fields and click "Save Changes."
Actual Test Results	The result will be same as expected.
Remark	If update fails, check for validation errors (e.g., invalid email format).

*Table 7 : Test Case 1 of Manage Profile***1.4.4.2 Test Case 2**

Test Objective	To validate error handling for invalid profile updates (e.g., blank fields, invalid email).
Potential Test Inputs (with example)	- Name: <i>Blank</i> - Email: "invalid-email" - Password: "123" (too short)
Expected Test Outputs (with example)	Error messages: - "Please enter your name." - "Invalid email format." - "Password must be at least 8 characters."
Test Procedures	1. Log in as a registered user. 2. Navigate to "Profile" > "Edit Profile." 3. Submit invalid data.
Actual Test Results	The result will be same as expected.
Remark	Ensure the system rejects changes and highlights erroneous fields.

1.5 Use Case 5 (SRD_REQ 05 → Add to Currently Reading)

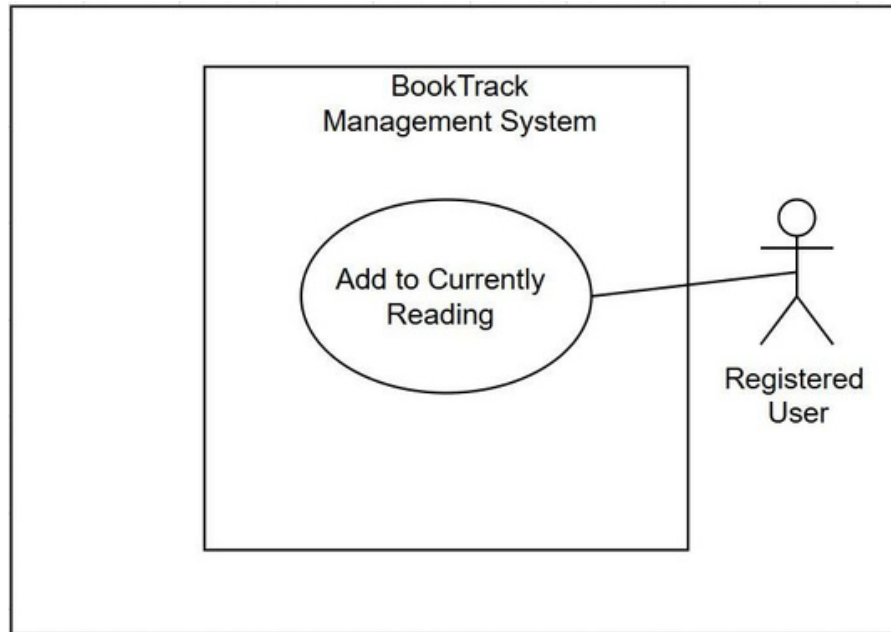

Figure 5 : Use Case 5

1.5.1 Use Case Name

Add to Currently Reading

1.5.2 Requirement Reference

Use case: 5

Use Case Name: Add to Currently Reading

1.5.3 Use Case Description

Allows users to add eBooks to their organized personal collection, enabling them to conveniently manage, categorize, and access their favorite eBooks anytime.

1.5.4.1 Test Case 1

Test Objective	To add eBooks to Currently Reading
Potential Test Inputs (with example)	Click the icon of bookmark at every eBook user wishes to add.
Expected Test Outputs (with example)	The system will update the user catalog in their profile view.
Test Procedures	Click the icon of bookmark at every eBook user wishes to add then add to their preferred catalog category.
Actual Test Results	The result will be the same as expected.
Remark	No further steps will be pursued following this outcome.

1.6 Use Case 6 (SRD_REQ 06 → Add New eBooks)

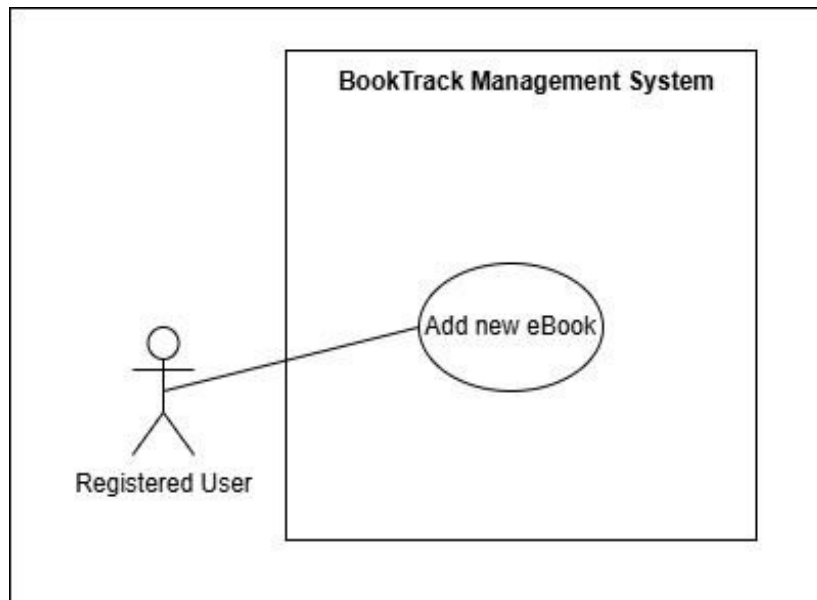

Figure 6 : Use Case 6

1.6.1 Use Case Name

Add New eBooks

1.6.2 Requirement Reference

Use case: 5

Use Case Name: Add New eBooks

1.6.3 Use Case Description

Registered users can upload new books by providing the details such as book title, author and synopsis.

1.6.4.1 Test Case 1

Test Objective	To add new eBooks into the database.
Potential Test Inputs (with example)	Book Title: It Ends With Us Author: Colleen Hoover Book Cover: .jpg Synopsis: "It Ends with Us" is a powerful novel about a woman named Lily who has just moved to Boston and started her own business. She meets a neurosurgeon named Ryle Kincaid and instantly feels a spark, but as their relationship develops, Lily finds herself recalling memories of her first love, Atlas Corrigan.
Expected Test Outputs (with example)	Added eBooks will be sent to the admin for approval.
Test Procedures	User login then fill all required details of intended added eBooks
Actual Test Results	The result will be the same as expected.
Remark	No further steps will be pursued following this outcome.

*Table 8 : Test Case 1 of Add New eBooks***1.6.4.2 Test Case 2**

Test Objective	To add new eBooks into the database with blank input.
Potential Test Inputs (with example)	Book Title: It Ends With Us Author: Colleen Hoover Book Cover: .jpg Synopsis:
Expected Test Outputs (with example)	The system will display error input 'Please fill out this field'
Test Procedures	User login then do not fill all required details of intended added eBooks
Actual Test Results	The result will be the same as expected.

-

Remark	No further steps will be pursued following this outcome.

Figure 7 : Use Case 7

1.7.1 Use Case Name

Add Owned eBooks

1.7.2 Requirement Reference

Usecase: 6

UseCase Name: Add Owned eBooks

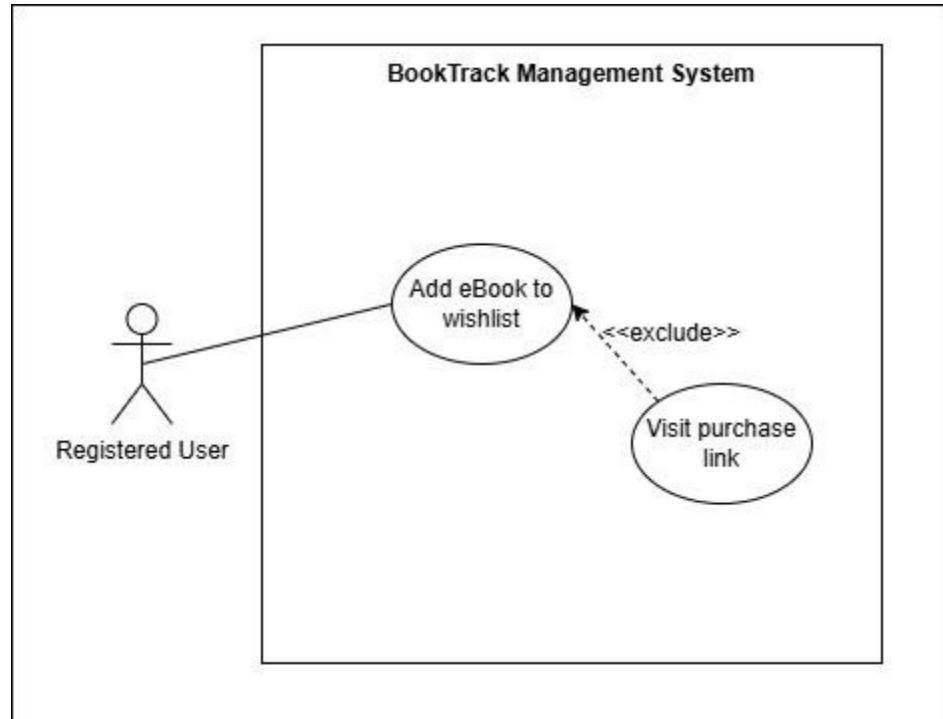

1.7.3 Use Case Description

Registered users can add the ebooks that they already have into the "Already Owned" category.

1.7.4.1 Test Case 1

Test Objective	To add owned eBooks into the users collection.
Potential Test Inputs (with example)	Click the icon of bookmark at every eBook user wishes to add to the “Already Owned” collection.
Expected Test Outputs (with example)	The system will update the user “Already Owned ” collection in their profile view.
Test Procedures	Click the icon of bookmark at every eBook user wishes to add then add to their “Already Owned” collection.
Actual Test Results	The result will be the same as expected.
Remark	No further steps will be pursued following this outcome.

Add to Wishlist

1.8.2 Requirement Reference

Use case: 7

Use Case Name: Add to Wishlist

1.8.3 Use Case Description

Registered users can add the eBooks that they want to have into the wishlist category, it will redirect to the purchase link of the eBook.

1.8.4.1 Test Case 1

Test Objective	To add eBooks to wishlist
Potential Test Inputs (with example)	Click the icon of bookmark at every eBook user wishes to add.
Expected Test Outputs (with example)	The system will update the user catalog in their profile view.
Test Procedures	Click the icon of bookmark at every eBook user wishes to read then add to their wishlist catalog category.
Actual Test Results	The result will be the same as expected.
Remark	No further steps will be pursued following this outcome.

Table 11 : Test Case 1 of Add to Wishlist

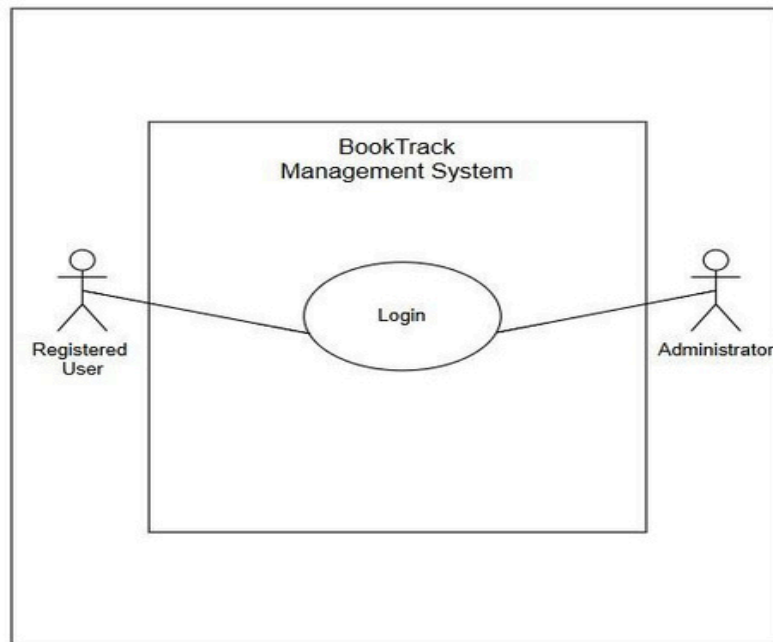

1.9 Use Case 9 (SRD_REQ-09 → Login)

Figure 9 : Use Case 9

1.9.1 Use Case Name

Login

1.9.2 Requirement Reference

Use case: 8

Use Case Name: Login

1.9.3 Use Case Description

Registered users and administrators must login to the system to access the additional features. If users sign in as guests (meaning they do not need to enter their full name and password) they can only access the home page, about page and book info page which will display only the synopsis and author name.

1.9.4.1 Test Case 1

Test Objective	To login into dashboard
Potential Test Inputs (with example)	Full Name: NUR AUNI INSYIRAH Password: auni123
Expected Test Outputs (with example)	Will be redirected to dashboard
Test Procedures	User insert the Full Name and Password
Actual Test Results	The result will be the same as expected.
Remark	If want to login as guest just click button "SIGN IN AS GUEST"

*Table 12 : Test Case 1 of Login***1.9.4.2 Test Case 2**

Test Objective	To login into dashboard with wrong full name or password
Potential Test Inputs (with example)	Full Name: NUR AUNI INSYIRAH Password: auni@1234
Expected Test Outputs (with example)	Failed to login (invalid fullname or password)
Test Procedures	User insert the fullname and password
Actual Test Results	Login failed
Remark	No further action will be taken

1.10 Use Case 10 (SRD_REQ-10 → Manage eBooks)

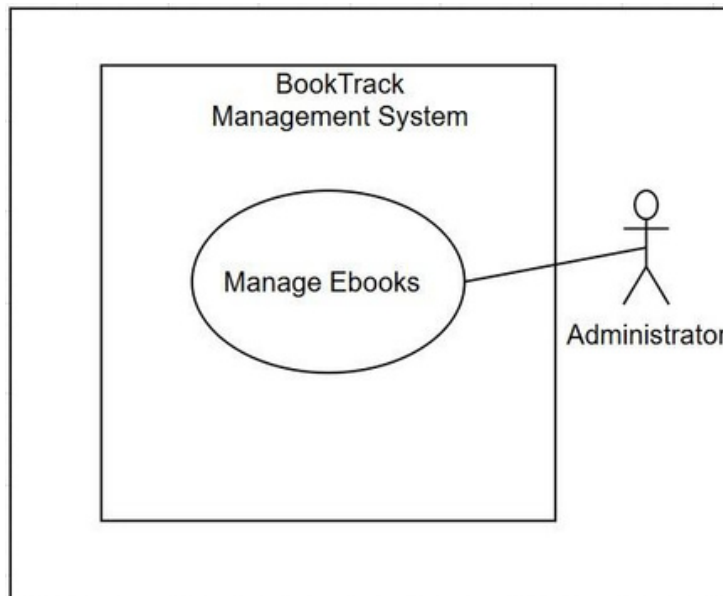

Figure 10 : Use Case 10

1.10.1 Use Case Name

Manage eBooks

1.10.2 Requirement Reference

Use case: 10

Use Case Name: Manage eBooks

1.10.3 Use Case Description

Administrator can review and approve the eBook added by the registered user.

1.10.4.1 Test Case 1

Test Objective	To allow the administrator to approve eBooks submitted by registered users.
Potential Test Inputs (with example)	A registered user added an eBook titled “Java Basics for Beginners.” Administrator accesses the moderation panel.
Expected Test Outputs (with example)	The system displays the submitted eBook details to the administrator. After approval, the eBook appears in the public catalog.
Test Procedures	1. Registered users add eBooks. 2. Administrator logs into the system. 3. Administrator reviews the submission under the action section 4. Administrator approves the eBook. 5. System lists the eBook in public catalog
Actual Test Results	The eBook “Java Basics for Beginners” is successfully approved and listed in the public catalog.
Remark	If the administrator wants to print this list, they just need to click the Print button located below the table on the right side.

Table 14 : Test Case 1 of Manage eBooks

1.10.4.2 Test Case 2

Test Objective	To allow the administrator to reject eBooks submitted by registered users that do not meet the platform's guidelines.
Potential Test Inputs (with example)	A registered user submits an eBook titled "Untitled Draft.". Administrator accesses the moderation panel and finds it incomplete.
Expected Test Outputs (with example)	The system notifies the administrator that the eBook has been rejected, and the registered user is informed with the reason for rejection.
Test Procedures	1. Registered users add eBooks. 2. Administrator logs into the system. 3. Administrator reviews the submission under the action section 4. Administrator clicks "Reject". 5. System notifies the user of the rejection.
Actual Test Results	The eBook "Untitled Draft" is rejected. The registered user receives a notification with a reason (e.g., "eBook content is incomplete").
Remark	If the administrator wants to print this list, they just need to click the Print button located below the table on the right side.

Table 15 : Test Case2 of Manage eBooks

1.11 Use Case 11 (SRD_REQ-11 → ManageUsers)

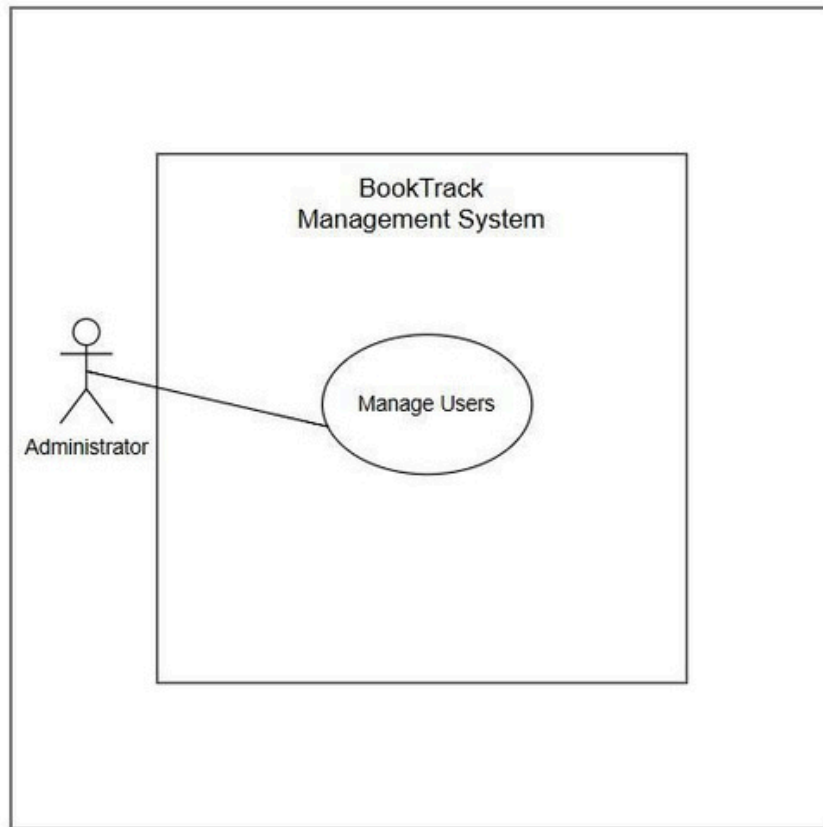

Figure 11 : Use Case 11

1.11.1 Use Case Name

Manage Users

1.11.2 Requirement Reference

Use case: 11

Use Case Name: Manage Users

1.11.3 Use Case Description

Administrators can manage user accounts. This includes viewing user lists, updating user details, activating or deactivating accounts.

1.11.4.1 Test Case 1

Test Objective	To allow the administrator to manage user accounts by viewing user lists and updating user details.
Potential Test Inputs (with example)	Administrator wants to change invalid email to new email. Invalid email: aida@@gmail New email: aidafarhana@gmail.com
Expected Test Outputs (with example)	The system updated the new email of the user by displaying a success message saying "User details updated."
Test Procedures	1. Administrator log in into the system. 2. Navigates to "Manage User" section. 3. Clicks on "Edit" next to user named "Aida". 4. Updates the email from 'aida@gmail' to aidafarhana@gmail.com. 5. Clicks save
Actual Test Results	Pop up message 'Success: User details updated.' shown.
Remark	No further steps will be pursued following this outcome.

Table 16 : Test Case 1 of Manage Users

1.11.4.2 Test Case 2

Test Objective	To allow the administrator to manage user accounts by activating or deactivating accounts.
Potential Test Inputs (with example)	Administrator deactivate registered user's account by clicking button "Deactivate".
Expected Test Outputs (with example)	.A pop up message "Account deactivated."
Test Procedures	1. Administrator log in into the system. 2. Navigates to "Manage User" section. 3. Locates user "U001" in the user list. 4. Click "Deactivate" button. 5. Verifies that the user's status changes to "Inactive".
Actual Test Results	Pop up message 'Success: User account has been deactivated.' shown.
Remark	No further steps will be pursued following this outcome.

Table 17 : Test Case 2 of Manage Users

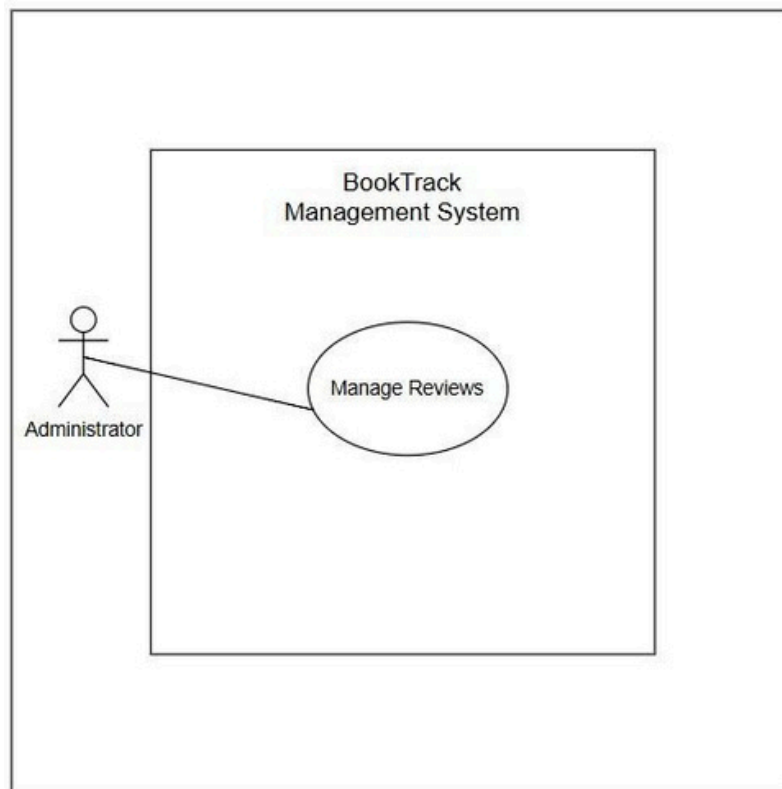

1.12 Use Case 12 (SRD_REQ-12 → Manage Reviews)

Figure 12 : Use Case 12

1.12.1 Use Case Name

Manage Reviews

1.12.2 Requirement Reference

Use case: 12

Use Case Name: Manage Reviews

1.12.3 Use Case Description

Administrators can access and manage reports submitted by users. This includes viewing reported content, verifying issues and taking appropriate actions.

1.12.4.1 Test Case 1

Test Objective	To allow the administrator to manage reports by approving and deleting reviews
Potential Test Inputs (with example)	Administrator wants to approve reviews.
Expected Test Outputs (with example)	The system updated the new report status by displaying a success message saying "Review added to the database".
Test Procedures	1. Administrator logs in into the system. 2. Navigates to the "Manage Reviews" section. 3. Click on the review to manage. 4. Approve the review by click on 'Review' button.
Actual Test Results	Pop up message 'Success: Review added to the database' shown.
Remark	No further steps will be pursued following this outcome.

Table 20 : Test Case1of Manage Reviews

1.12.4.2 Test Case 2

Test Objective	To allow the administrator to manage reports by approving and deleting reviews.
Potential Test Inputs (with example)	Administrator wants to delete reviews.
Expected Test Outputs (with example)	The system updated the new report status by displaying a success message saying "Review removed from the database".
Test Procedures	1. Administrator logs in into the system. 2. Navigates to the "Manage Reviews" section. 3. Click on the review to manage. 4. Delete the review by click on 'Delete' button.
Actual Test Results	Pop up message 'Success: Review removed from the database' shown.
Remark	No further steps will be pursued following this outcome.

Table 21 : Test Case 2 of Manage Reviews
